

Disability Support and
NDIS Funded Services

"My family have always been so nervous letting other people care for my sister, considering she can't talk to us. When Jayden first started working with Samara, we felt no hesitation. He was amazing and Samara loved him! Now, he is coordinating Samara's services and we always have complete faith he will send the best carers for Samara, which takes the world off our shoulders"

- Regina, Client's Sister

Hello... I'm Jayden Johnston

I established JJ Care Services in 2020, after working in many roles in direct care and coordination across a range of residential care facilities and community care providers.

Having cared for my own grandmother through her dementia and palliative care journey at home, I have a first hand understanding of the importance of your Support Workers fitting into your family and lifestyle.

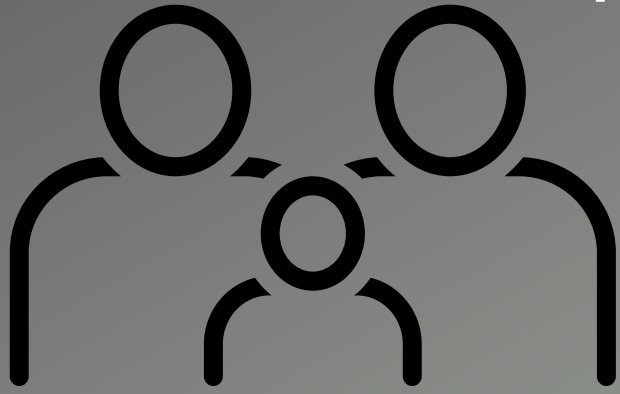

Every day, I find real satisfaction in supporting my clients independence and control over their lives.

If you would like to discuss any of the information in this booklet, please get in touch with me directly. I would love to support you or your family members to live your best lives!

Jayden XX
